

## REMARKS

Paragraph 0016 of the specification is amended to clarify that “The web server 160, in turn, communicates with the storage systems 100 and 110” rather than “The web server 160, in turn, communicates with the storage system 100.”

Paragraph 0017 of the specification is amended to correct a typographical error. The paragraph now states “The storage system 100 configures the path to the storage system 110 ...” where the reference numeral “110” replaces “100”.
